Aetna Pharmacy Management refers to an internal business unit of Aetna Health Management, LLC. If your plan covers outpatient prescription drugs, your plan may include a drug formulary (preferred drug list). A formulary is a list of prescription drugs generally covered under your prescription drug benefits plan on a preferred basis subject to applicable limitations and conditions. Your pharmacy benefit is generally not limited to the drugs listed on the formulary. The medications listed on the formulary are subject to change in accordance with applicable state law. For information regarding how medications are reviewed and selected for the formulary, formulary information, and information about other pharmacy programs such as precertification and step-therapy, please refer to Aetna's website at www.aetna.com, or the Aetna Medication Formulary Guide. Many drugs, including many of those listed on the formulary, are subject to rebate arrangements between Aetna and the manufacturer of the drugs. Rebates received by Aetna from drug manufacturers are not reflected in the cost paid by a member for a prescription drug.

In addition, in circumstances where your prescription plan utilizes copayments or coinsurance calculated on a percentage basis or a deductible, use of formulary drugs may not necessarily result in lower costs for the member. Members should consult with their treating physicians regarding questions about specific medications. Refer to your plan documents or contact Member Services for information regarding the terms and limitations of coverage. Aetna Rx Home Delivery® refers to Aetna Rx Home Delivery, LLC, a subsidiary of Aetna Inc., that is a licensed pharmacy providing mail-order pharmacy services. Aetna's negotiated charge with Aetna Rx Home Delivery may be higher than Aetna Rx Home Delivery's cost of purchasing drugs and providing mail-order pharmacy services.

Certain primary care providers are affiliated with integrated delivery systems or other provider groups (such as independent practice associations and physician-hospital organizations), and members who select these providers will generally be referred to specialists and hospitals within those systems or groups. However, if a system or group does not include a provider qualified to meet member's medical needs, member may request to have services provided by a non-system or non-group providers. Member's request will be reviewed and will require prior authorization from the system or group and/or Aetna to be a covered benefit.

Certain services require precertification, or prior approval of coverage. Failure to precertify for these services may lead to substantially reduced benefits or denial of coverage.

Some of the benefits requiring precertification may include, but are not limited to, inpatient hospital, inpatient mental health, inpatient skilled nursing, outpatient surgery, substance abuse (detoxification), inpatient and outpatient rehabilitation). When the Member obtains covered services from participating providers, the provider will obtain precertification. If the Member obtains covered services from a nonparticipating provider, the Member must obtain the precertification. Precertification requirements may vary. Members may refer to their plan documents for a complete list of medical services that require precertification. Certain benefits like comprehensive infertility and advanced reproductive technology (ART) services, if covered under your plan, are subject to a select network of participating providers, from which you will be required to seek care to receive covered benefits.

Members or providers may be required to precertify, or obtain prior approval of coverage for certain services such as non-emergency inpatient hospital care. Certain benefits like comprehensive infertility and advanced reproduction technology (ART) services, if covered under your plan, are subject to a select network of participating providers, from which you will be required to seek care to receive covered benefits.
